EXPERIMENT – 04

Reports for Campus Event & Participation Management System

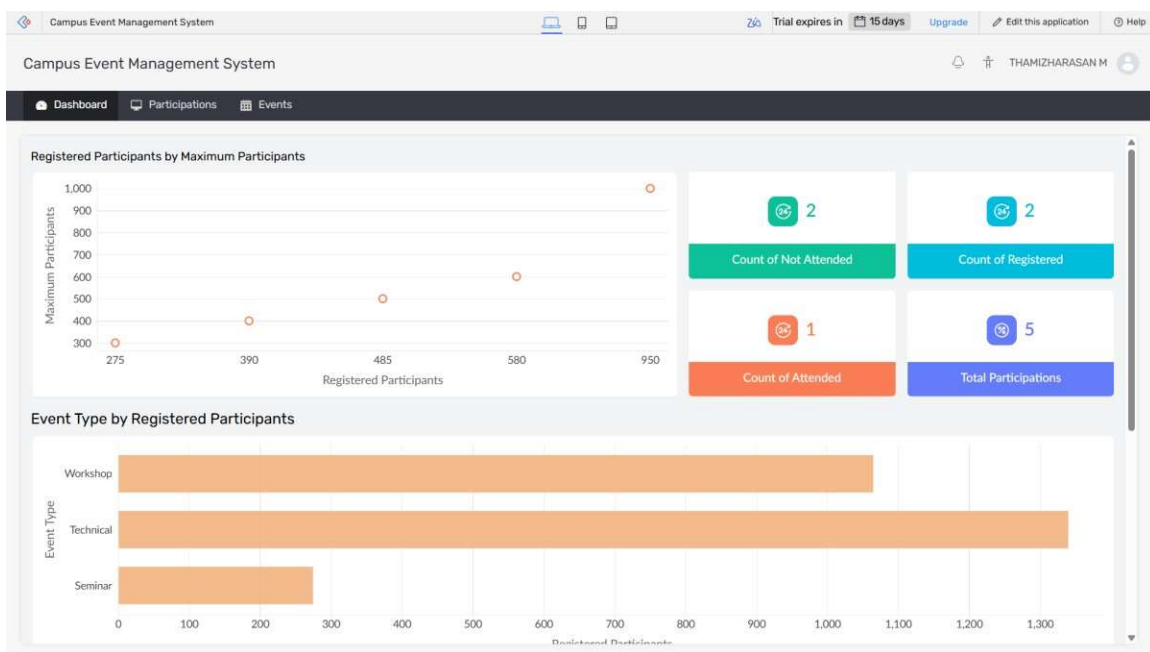

Aim:

To generate, visualize, and export various reports and dashboards for the Campus Event & Participation Management System to effectively analyze event data and participant statistics.

Procedure:

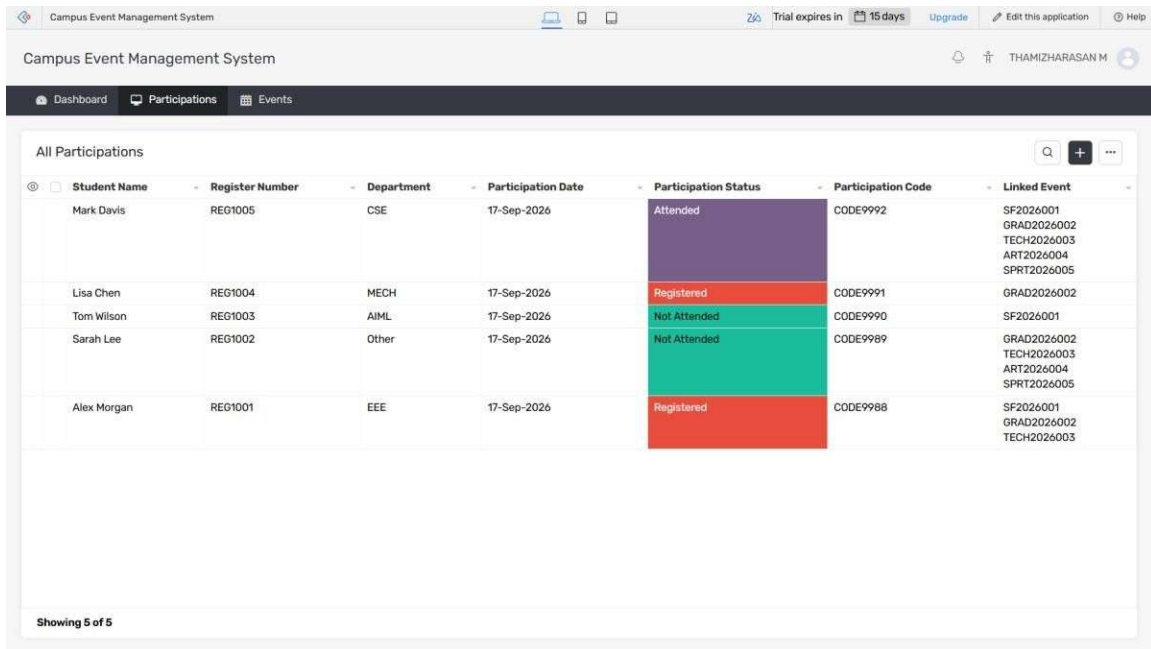

1. 1. Dashboard Visualization:

Navigate to the Dashboard module to view high-level metrics. Observe the visual reports, including a scatter plot for Maximum vs. Registered Participants, a bar chart categorizing Events by Type (Workshop, Technical, Seminar), and KPI counter widgets detailing overall attendance statuses.

2. 2. Tabular Report for Participations:

Access the "Participations" view to see a tabular report of all student registrations. Verify that the participation statuses (e.g., Attended, Registered, Not Attended) are distinctly color-coded for quick visual identification.

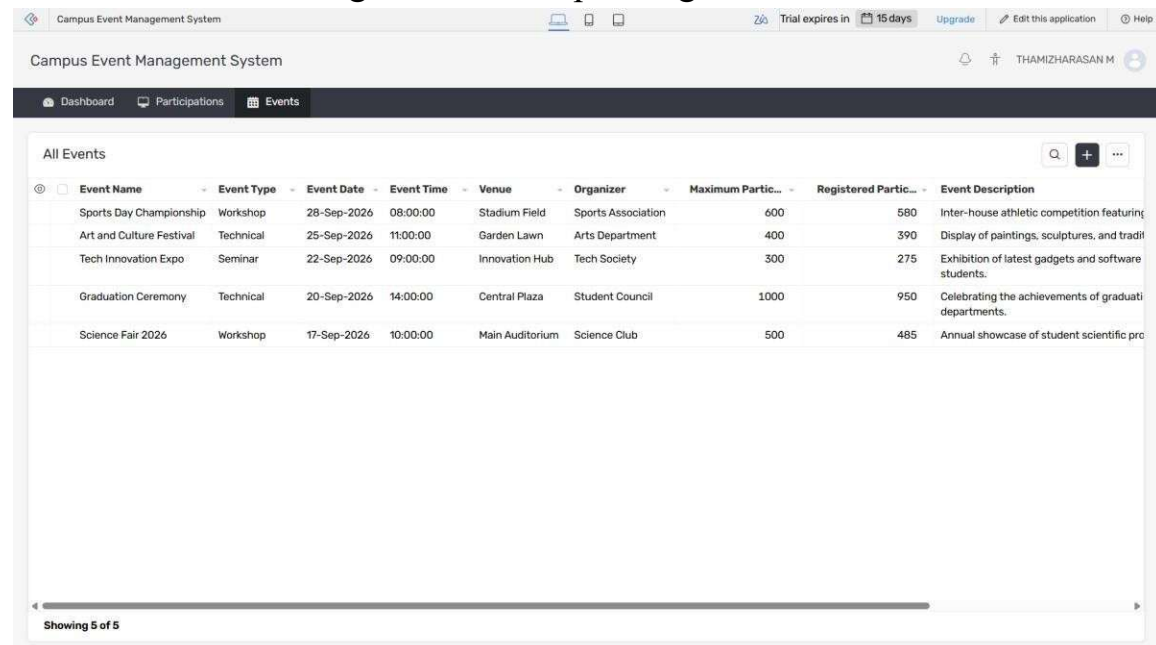

Student Name	Register Number	Department	Participation Date	Participation Status	Participation Code	Linked Event
Mark Davis	REG1005	CSE	17-Sep-2026	Attended	CODE9992	SF2026001 GRAD2026002 TECH2026003 ART2026004 SPRT2026005
Lisa Chen	REG1004	MECH	17-Sep-2026	Registered	CODE9991	GRAD2026002
Tom Wilson	REG1003	AIML	17-Sep-2026	Not Attended	CODE9990	SF2026001
Sarah Lee	REG1002	Other	17-Sep-2026	Not Attended	CODE9989	GRAD2026002 TECH2026003 ART2026004 SPRT2026005
Alex Morgan	REG1001	EEE	17-Sep-2026	Registered	CODE9988	SF2026001 GRAD2026002 TECH2026003

3. 3. Events Summary Report:

Open the "Events" list report to view detailed schedules. Confirm the visibility of key data points such as Event Date, Time, Venue, Organizer, and the current count of Registered Participants against the Maximum limit.

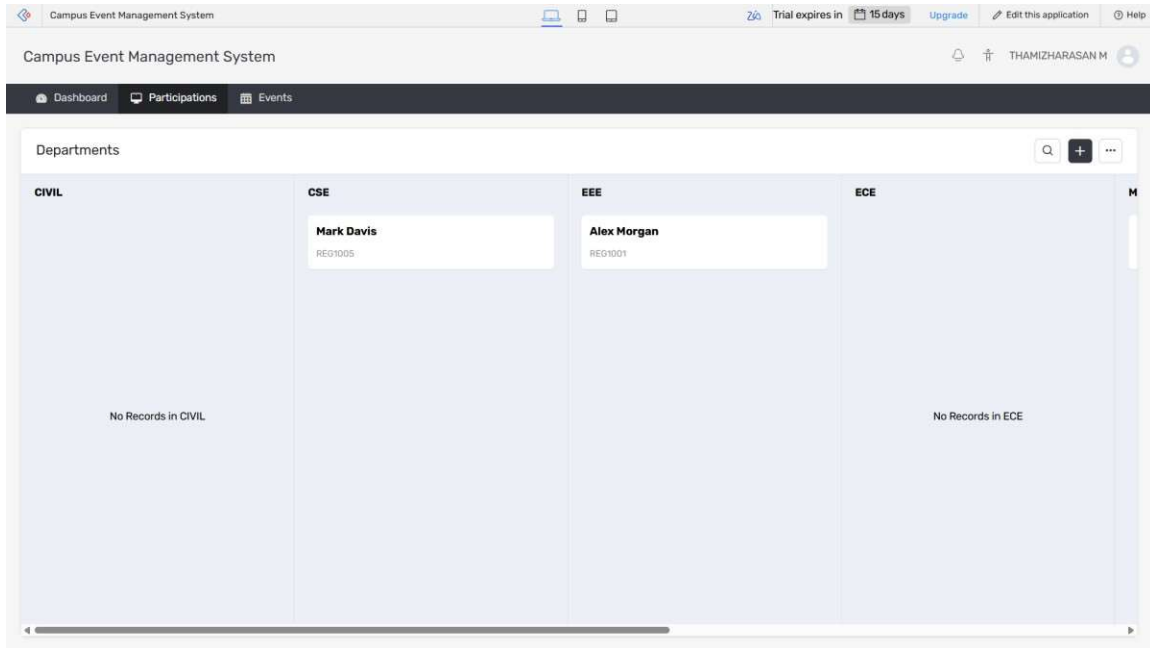

Event Name	Event Type	Event Date	Event Time	Venue	Organizer	Maximum Partic...	Registered Partic...	Event Description
Sports Day Championship	Workshop	28-Sep-2026	08:00:00	Stadium Field	Sports Association	600	580	Inter-house athletic competition featuring
Art and Culture Festival	Technical	25-Sep-2026	11:00:00	Garden Lawn	Arts Department	400	390	Display of paintings, sculptures, and tradit
Tech Innovation Expo	Seminar	22-Sep-2026	09:00:00	Innovation Hub	Tech Society	300	275	Exhibition of latest gadgets and software students.
Graduation Ceremony	Technical	20-Sep-2026	14:00:00	Central Plaza	Student Council	1000	950	Celebrating the achievements of graduati departments.
Science Fair 2026	Workshop	17-Sep-2026	10:00:00	Main Auditorium	Science Club	500	485	Annual showcase of student scientific pro

4. 4. Department-wise Kanban Report:

Switch the report layout to a Kanban board grouped by "Department". This visual layout allows for easy tracking of student participation categorized by engineering branches such as CIVIL, CSE, EEE, and ECE.

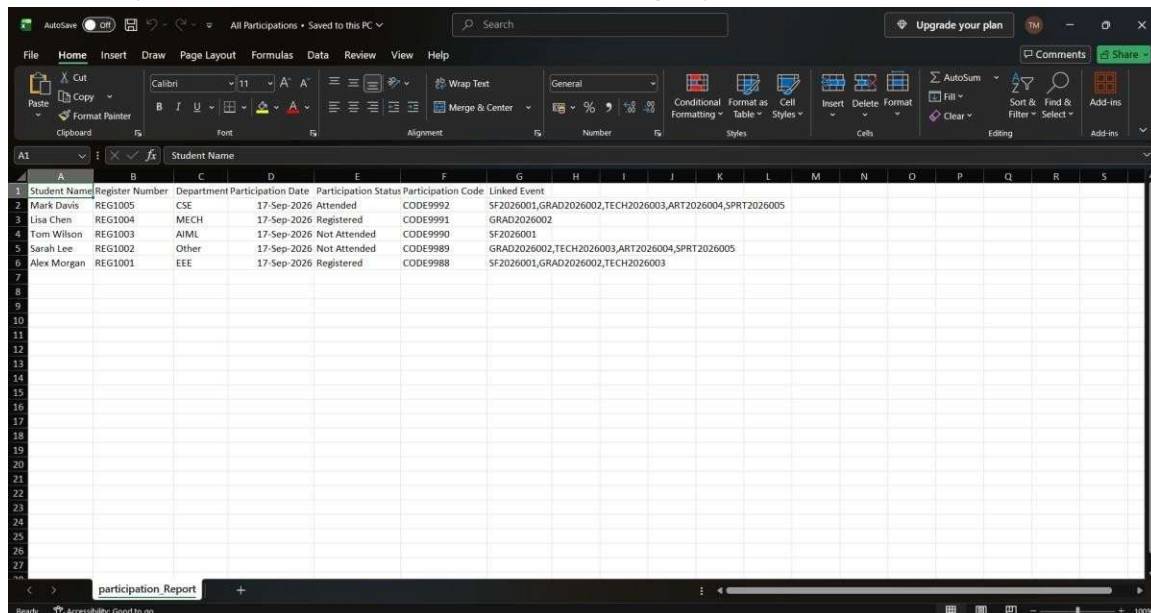

5. 5. Exporting Report Data:

Utilize the platform's export functionality to download the Participations report. In the Export dialog, provide a file name, select "XLSX" as the format, and ensure all necessary columns (Student Name, Register Number, Department, etc.) are checked for export.

6. 6. Verifying Exported Data:

Open the downloaded XLSX file in Microsoft Excel. Verify that all participant records, headers, and linked event data have been exported accurately and maintain their structural integrity.

Conclusion:

The reporting modules for the Campus Event & Participation Management System were successfully explored and utilized. The creation of interactive dashboards, distinct Kanban views, and detailed tabular reports provided

effective data visualization. Furthermore, the successful extraction of records to MS Excel demonstrated the system's seamless data export capabilities.
